

Sprinkler Head Hose Adapter

PATENT PENDING

- Hose Rotates 360°.
- No Hose KINKING.
- Flexible hose prevents tension.
- Unrestricted Water Flow.

4 sizes available

- As part of Kochek's *Water Movement* line, convert a sprinkler head from any manufacturer into an instant hose adapter or quick coupler. The PVC braided hose rotates 360° supporting movement in any direction. The hoses are made of stainless steel reinforced clear poly braid.
- Designed to be used with Kochek *Water Movement* products for hand watering localized dry spots, equipment washing, or any hose application where only a sprinkler head exists. This adapts the sprinkler head to create the hose connection you need.
- Sold as a kit with Kochek's powder coated aluminum, and 1" "Full Time Swivel" connection or with just the adapter and nipple alone. Available in 4 sizes.
