We've never made an internal combustion engine.
And never will.

**Kress has always
been at the forefront
of electric innovation.**

Founded by Christian Kress in 1928, the company's initial focus was electric motors.

By the 1960s, the brand expanded into stationary workshop machines and portable power tools.

With a state-of-the-art R&D centre in Switzerland in 1979, the emphasis shifted towards cordless tools, and Kress distribution expanded to 60 countries.

Joining the international Positec Group in 2017 supercharged the brand's focus on cordless outdoor power equipment for professionals and homeowners.

In 2023, Kress proudly introduced the 8-minute CyberSystem, setting a new global standard in battery power, charging time and lifespan.

As an icon of German engineering, Kress remains committed to a future free of fossil fuels.

**Groundbreaking
Innovations**

8-minute charging to 100% with Kress CyberSystem, the fastest charging, longest-lasting battery solution on the market.

Dealer network

100% commitment to Independent Dealer Network.

Green values

Holding both Leed Platinum and WWF Platinum certifications, Kress is not only dedicated to minimising our own environmental impact but is also committed to empowering users worldwide to reduce their carbon footprint.

60 V Commercial CyberSystem

6.5kW*

The only choice
for commercial landscapers
to replace petrol

CyberSystem

Ready to abandon petrol? Look no further. Still clinging to petrol? It's time to evolve.

Insane power

The era of batteries chasing the power of petrol engines is over. Now, it's their turn to try and catch up with Kress.

"I tried other brands but was not satisfied: I lacked productivity, efficiency, and savings. Kress has enabled my crews to work better."

Fabio Armani, Eco Garden Net,
Tuscany, Italy

*Peak power output of the Kress 8-minute 240 Wh battery, achievable for up to 10 seconds; continuous is 3.2 kW, deliverable up to full battery discharge.

The new paradigm of power

Kress 8-min CyberPack batteries excel over internal combustion engines, ensuring peak performance across RPMs. Their unique composition enables high discharge current without compromising cell integrity or longevity.

Extreme longevity

Guaranteed for 3,000 cycles, Kress 8-minute CyberPack batteries are the only batteries to outsave fossil fuels.

Ultra-fast on-site charge

At just 8 minutes*, batteries power up faster than they wind down. Even better, they charge on the go - no AC outlet needed.

* With 8-minute CyberSystem batteries

3000 cycles

How it works

The energy

Take the energy for your working day with you and charge your batteries in eight minutes*. Anywhere. Anytime. Unplugged.** Or, you can take the CyberPlug with you to charge on site.

The gear

Kress Commercial offers a curated selection of tools, precisely tailored to meet the demands of professional landscapers.

The power

Thanks to proprietary technology, Kress batteries deliver outstanding power and support ultra-fast charging.

The crew

Landscapers can now experience healthier, quieter, and smoother operation. They can feel the incredible instant power at a trigger's pull, and elevate their bottom line with the only battery system that delivers substantial savings.

* with 8-minute CyberSystem batteries.
** with CyberTank and CyberLite charger.

Why Kress batteries are unique

Kress 8-minute batteries are the fruit of extensive research and proprietary technology, engineered to create the ideal power solution specifically for commercial landscaping demands.

“Our partnership with Kress brings battery-powered outdoor equipment to the field, elevating service levels while protecting our planet.”

Stuart Barker, Programmed Property Services, Australia

“I converted all my crews to Kress. Prioritising our employees' health is one of the best retention strategies we have.”

Justin White, CEO of K&D, California, USA

Why many battery systems fall short as a true alternative to petrol

Conventional lithium battery systems lack the high-power output needed for commercial landscaping, charge too slowly, and miss the convenience of unplugged on-site charging. Their shorter lifespans mean more frequent replacements and higher costs.

Energy system - CyberSystem

No AC outlet available on site

Bring the energy on site and recharge batteries in just 8 minutes. Power through the workday with no interruptions.

Transportability and flexibility

Bring the energy with you and recharge batteries on site. Power through the workday with no downtime.

AC outlet available on site

Plug into our super-fast charger with just a minimal set of batteries to ensure continuous operation without downtime.

“ Thanks to Kress, I have been able to make a change that brings benefits to everyone involved and also generates savings. ”

CIS, Tuscany, Italy

Why choose Kress Commercial tools

Switching to Kress Commercial battery-operated tools will relieve you and your workforce from health risks associated with fossil-fuelled engines.

Kress cares

Vibration

Exposure to prolonged or excessive vibration can lead to a condition known as hand-arm vibration syndrome (HAVS).

Air pollution

The particulate emissions from a two-stroke engine operating for just one hour are equivalent to those from driving a car for 1,000 miles.

Source: California Air Resource Board

Noise

Prolonged exposure to high levels of noise has consequences on both physical and mental health.

8-minute CyberPack
60 V **Commercial**
CyberSystem

Ultra-fast on-site charge

Achieve a 100% charge for your batteries in just 8 minutes*, ensuring uninterrupted operation during your daily tasks.

Guaranteed for longevity

The Kress Commercial CyberTank excels in battery longevity with its automotive-grade LFP cells and tri-port management system, ensuring superior performance and extended lifespan.

DC-DC ports

With triple DC-DC ports enable simultaneous charging of multiple Kress 60 V batteries, ensuring uninterrupted power and boosting on-site efficiency.

Durable by design

With durable metal housing and IPX4 water-resistance, it withstands tough conditions, ensuring reliable performance and longevity in demanding professional environments.

5 kWh CyberTank portable power station

KAC875E

The evolution of tanks: from fossil fuel to clean energy

The Kress Commercial CyberTank ensures all-day, uninterrupted tool readiness while lowering costs and supporting sustainable practices - perfect for sustainable landscaping companies and municipalities.

Voltage	48 V
Battery capacity	105 Ah
Battery energy	5,040 Wh
CyberPack charging time	1 x 240 / 660 Wh 14 min 2 x 240 / 660 Wh 14 min
CyberPack charging time (Flash charge)	1 x 240 / 660 Wh 8 min

The energy link

Serving as the power source of the CyberTank Lite charging solution, it ensures 5 full charges of 240 Wh CyberPack batteries.

Dual-use power hub

Featuring an impressive 1.5 kWh energy storage capacity and a peak output power of 9.7 kW, the CyberCapsule can double as a substantial battery module.

Durability redefined

The Kress CyberCapsule is built to last, withstanding rigorous conditions with its sturdy construction and IPX5-rated sealed PCB.

Durability redefined

Even under high discharge currents, the Kress CyberCapsule batteries are warrantied for 5-years or 1200-cycles (whichever comes first), ensuring long-lasting cost savings.

60 V 1.5 kWh CyberCapsule

KAC815

Flexible energy storage

This is a compact, flexible 1.5 kWh energy module for charging batteries without AC access. Landscapers can carry extra modules to adjust energy capacity or use it as a backpack battery to power tools directly.

CyberLite charger 60 V **Commercial** CyberSystem

Ultra-fast charging

The CyberLite charger is a game-changer, boasting the ability to power a 240 Wh CyberPack from a 1.5 kWh CyberCapsule in an astounding 12 minutes.

Redefining resilience

Built for endurance, the Kress Commercial CyberLite charger features a robust design with an IPX5 rating, ensuring reliable protection against drops, dust, impacts, vibrations, and the elements.

Stay in control

The CyberLite charger has intuitive LED indicators for quick charge updates and system diagnostics for optimal battery management and performance.

Power in hand

With an ergonomic handle and light build, the charger offers excellent portability, engineered for landscape professionals who need reliable power anywhere.

CyberPlug charger 60 V **Commercial** CyberSystem

High-speed charging hub

With 1800 W output and advanced air cooling, the Kress CyberPlug delivers fast, efficient charging from any AC outlet - ideal for professionals seeking speed and reliability.

Redefining resilience

Built for durability, the Kress Commercial Cyber-Plug charger features a rugged design to handle tough conditions. With an IPX5 rating, it resists drops, dust, impacts, vibrations, and weather, providing dependable performance in any environment.

Dual-port design

The dual ports intelligently recognise and sequential charge a pair of batteries from the Kress CyberSystem lineup, optimising downtime.

Universal compatibility

Kress CyberPlug can charge all Kress 60 V batteries and CyberPacks.

60 V Kress Commercial CyberLite charger

KAC844

Transportability and flexibility

Designed for professionals, the CyberTank-Lite DC-DC charging system offers unmatched portability, transferring energy from a CyberCapsule to any CyberPack in just 12 minutes. This mobility ensures swift, efficient charging, keeping your tools running without being tied to a fixed location.

CyberPack Nano
60 V Commercial
CyberSystem

Small but powerful

Delivering 240 Wh of robust energy in a sleek package, the CyberPack Nano offers consistent power for professional-grade tools without the bulk.

Enhanced longevity

Even under high discharge currents, the Kress CyberPack Nano batteries are warrantied for 4-years or 1200-cycles (whichever comes first),ensuring long-lasting cost savings.

Built to last

Fortified with a sealed PCB and air-cooling system, ensuring IPX5-rated protection against the elements. Dependable in the toughest conditions, it's the professional's choice for consistent performance.

“ With Kress technology we’re able to run crews with an 8-minute charge. We’re charging batteries on the go - all day. ”

Chris Angelo, President and CEO
Stay Green, California, USA

Voltage	60 V
Motor type	Brushless
Cutting speed	3200 / 4000 spm
Blade length	55 cm
Tooth spacing	34 mm
Weight (bare)	5.2 kg
IPX rating	IPX5

55 cm fixed pole hedge trimmer **KC241.9**

**Reach further,
cut faster**

Effortlessly handle wide, short hedges with a fixed-angle cutting head and short shaft. The powerful motor and laser-cut steel blade deliver 25 cc-equivalent cutting efficiency.

4000 SPM

Voltage	60 V
Motor type	Brushless
Cutting speed	3200 / 4000 spm
Blade length	55 cm
Tooth spacing	34 mm
Weight (bare)	4.6 kg
IPX rating	IPX5

Rear-handle chainsaw
60 V **Commercial**
CyberSystem

**Ready for
unstoppable power?**

Delivers consistent performance under varying loads without stalling, unlike 2-stroke engine chainsaws, which often lose power and stall under heavy loads.

**Optimised safety
integration**

Equipped with an inertial brake, anti-trigger battery lock, dual-action trigger, and rear handle protection, ensures secure, reliable operation.

**Arborist's
power ally**

Deliver commercial-grade cutting power with minimal maintenance. Built for arborists, as powerful as petrol, offering longer runtime and lower costs. Reliable for demanding professional use.

**Precision
tension**

The tensioning system allows quick, precise adjustments, keeping the chain at optimal tension for better efficiency and extended lifespan.

50 cm chainsaw

KC340.9

**Power and
precision for
heavy-duty cutting**

Designed for arborists and landscapers, this chainsaw delivers 30 m/s chain speed and 65 cc petrol power equivalent. It handles heavy tree-cutting tasks with high power, great ergonomics, efficiency, and sustainable performance.

3.8 kW

Voltage	60 V
Motor type	Brushless
Chain speed	30 m/s
Chain pitch	0.325"lp
Chain gauge	1.3 mm
Weight (bare)	4.8 kg
Equivalent to petrol power	65 cc
IPX rating	IPX5

NEW

40 cm chainsaw

KC310.9

**Real power
in every cut**

Built for landscaping companies and municipalities pursuing sustainability, the KC310 delivers 24 m/s chain speed and sustained torque, equivalent to 50 cc petrol power. It offers high cutting efficiency, reduced costs, and sustainable performance.

2.8 kW

Voltage	60 V
Motor type	Brushless
Chain speed	24 m/s
Chain pitch	0.325"lp
Chain gauge	1.1 mm
Weight (bare)	2.9 kg
Equivalent to petrol power	50 cc
IPX rating	IPX5

NEW

40 cm chainsaw

KC300.9

**Real power
in every cut**

Built for landscaping companies and municipalities pursuing sustainability, the KC300 delivers 24 m/s chain speed and sustained torque, equivalent to 50 cc petrol power. It offers high cutting efficiency, reduced costs, and sustainable performance.

2.8 kW

Voltage	60 V
Motor type	Brushless
Chain speed	24 m/s
Chain pitch	0.325"lp
Chain gauge	1.1 mm
Weight (bare)	3.7 kg
Equivalent to petrol power	50 cc
IPX rating	IPX5

Top-handle chainsaw
60 V **Commercial**
CyberSystem

- Robust power for precision work**

Designed for professional arborists, it delivers 2.4 kW power and 24 m/s chain speed, matching a 40 cc petrol chainsaw. It excels in precise cutting with exceptional efficiency and manoeuvrability.
- Built to last**

Features a professional-grade cutting system engineered for precision and durability in woodcutting and tree maintenance. A tool built for enduring performance.
- Safety first**

Prioritises safety with an inertial brake, dual-action trigger, battery release catch, and multi-hook combination, ensuring reliable and secure operation.
- Commercial-grade brushless motor**

The brushless motor delivers powerful, efficient performance with a longer lifespan and lower maintenance than petrol chainsaws.

Pole saw
60 V **Commercial**
CyberSystem

- Superior performance**

With 1.6 kW power and a 17 m/s chain speed, equivalent to a 30 cc petrol pole saw, the KC330 delivers smooth, continuous cuts for effective pruning and overhead branch cutting.
- Commercial grade brushless motor**

The commercial-grade brushless motor provides exceptional power, extended runtime, and durability. It offers reliable, maintenance-free performance compared to petrol chainsaws.
- Multi-safety design**

Features a control panel, trigger guard, brake indicator, status LED, and multiple alarms for safe and efficient operation during demanding tasks.
- Balanced design**

The rear motor layout and 2-point adjustment of the pole saw enhance balance and ease of use, reducing fatigue in extended cutting tasks.

35 cm top handle chainsaw

KC320.9

Powerfully lightweight

Designed for landscaping and municipalities, this arborist chainsaw matches a 45 cc petrol saw with a 24 m/s speed. It offers precise cuts, reduced kickback, and lower operating costs compared to petrol and other battery systems.

2.4 kW

Voltage	60 V
Motor type	Brushless
Chain speed	24 m/s
Chain pitch	0.325"lp
Chain gauge	1.1 mm
Weight (bare)	2.5 kg
Equivalent to petrol power	45 cc
IPX rating	IPX5

25 cm telescopic pole saw

KC330.9

Extended precision

Extends up to 4 meters, rivalling petrol engines in power. Its 2-point adjustment system ensures precise cuts from various angles. Part of the Kress Commercial CyberSystem, it combines high performance with lower operating costs.

1.6 kW

Voltage	60 V
Motor type	Brushless
Chain speed	17 m/s
Chain pitch	3/8"lp
Chain gauge	1.1 mm
Weight (bare)	5.7 kg
Equivalent to petrol power	35 cc
IPX rating	IPX5

Backpack blower 60 V **Commercial** CyberSystem

Superior performance

With an outstanding 35 N blowing force, 1,529 m³/h air volume and 85 m/s speed of air, this blower rivals the performance of 65 cc petrol-powered blowers.

QuietStorm™ low-noise technology

The KC500 meets city noise regulations and demanding customer needs, helping you secure low-noise bids while delivering high-end 65 cc petrol blower performance.

Fatigue-less design

The harness is crafted from breathable materials, ensuring air circulation and comfort during extended use.

Precision at your command

The variable speed trigger system allows for precise power adjustments, promoting energy-saving practices and extending battery pack runtime.

Handheld blower 60 V **Commercial** CyberSystem

High-efficiency blowing

With an air volume of 1444 m³/h** and 22 N blowing force, this blower is essential for professionals seeking efficiency and reliability in demanding landscaping tasks.

QuietStorm™ low-noise technology

The KC510 meets city noise regulations and customer demands, helping you win bids where low noise is key, while delivering high-end petrol blower performance.

Precision at your command

The variable speed trigger system allows for precise power adjustments, promoting energy-saving practices and extending battery pack runtime.

4-step speed settings

Ultimate control with 4-step speed settings and feathered cruise control for precise airspeed and reduced fatigue during extended use.

35 N backpack blower

KC500.9

Get rid of noise without compromising performance

Delivers 35 N of force, matching 65 cc petrol blowers but without fumes, noise, or vibration. Operating at 79.5 dB, it meets silent zone regulations while reducing costs through the Kress Commercial CyberSystem. Built for landscaping companies and municipalities pursuing sustainability.

Backpack battery harness **KAC900**

When working with tools such as the Kress 60 V hedge trimmer, the battery harness helps distribute the weight of the tool for a more comfortable working environment.

	Weight	2.3 kg
	Suitable for	Kress 60 V batteries and Kress 60 V CyberPack

Battery belt **KAC903**

Carry Kress batteries more comfortably with this shaped battery belt.

	Weight	1.7 kg

Weight balance kit **KAC939**

For use with the backpack harness to improve the tools' balance.

	Weight	1.5 kg

Rain cover **KAC920**

Expertly designed to protect various gardening equipment from extreme weather conditions like snow, heavy rain, and damage caused by sun exposure. It also safeguards your tools from dirt, birds, and tree sap.

	Weight	0.25 kg

Rain cover for mower **KAC921**

Designed specifically to shield lawn mowers from harsh weather conditions, including snow, heavy rain, and sun damage. This cover also offers protection against common outdoor nuisances such as dirt, bird droppings, and tree sap.

	Weight	1.35 kg

Highly integrated app

All elements of our system work together to form an interconnecting network. Batteries communicate with tools and chargers. Data is sent to the cloud for diagnostics, theft protection, fleet management and much more. All of the information you need is at your fingertips.

Fleet management

Real-time equipment tracking. Manage crews and operators, check out and check in to know equipment inventory. Know how your equipment is used, its work history, power consumption, efficiency... and more. Manage your customer lists.

Smart control

Display of equipment status and remote control. Theft protection with quick CyberTank lock down upon anti-theft alert. Error notifications, "How to solve" guide, product manuals for troubleshooting anywhere.

Equipment management

Effortlessly connect your devices through the app to track locations, monitor statuses, control remotely, and perform OTA updates. Enjoy streamlined charging management, detailed usage insights, and power consumption data. Simplify inventory tracking with easy check-in and check-out features.

Anti-theft warning

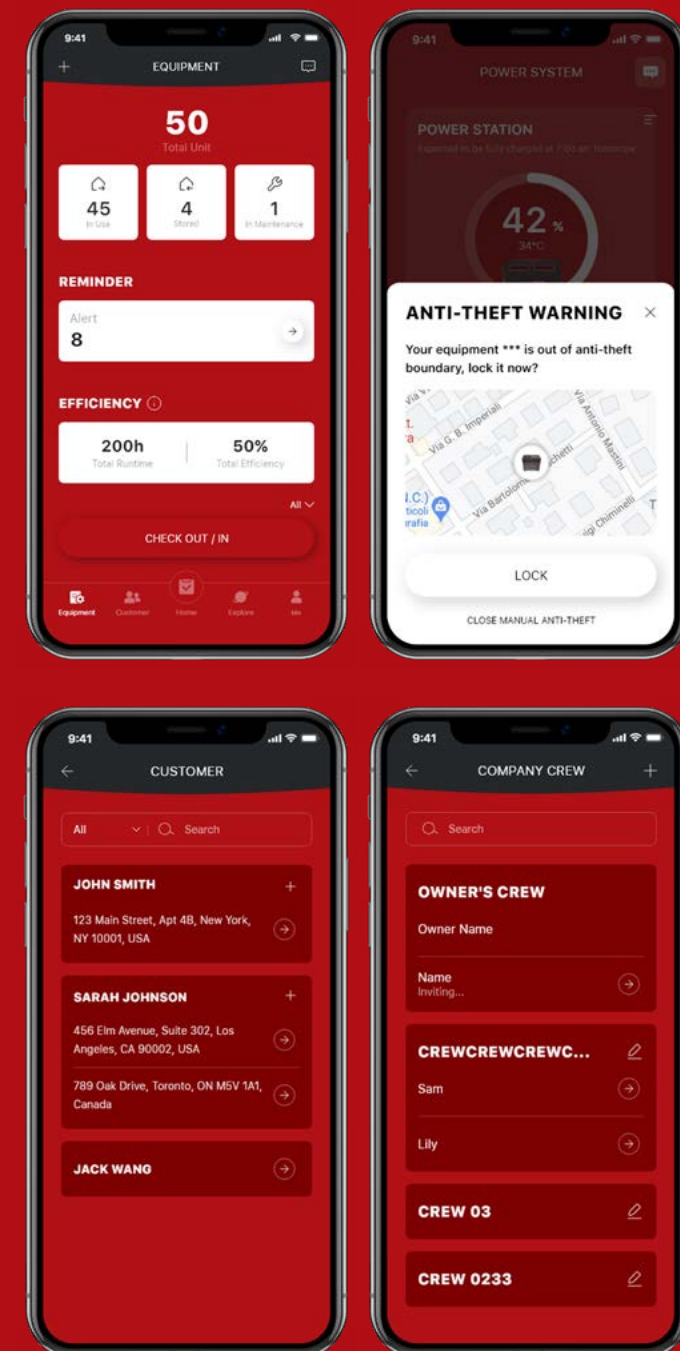

Define an anti-theft zone with a CyberTank and get instant alerts if your equipment moves beyond the designated area. Keep your tools secure during brief stops or once they return to your facility.

Customer management

Easily organise and oversee customer details and addresses for enhanced efficiency and convenience.

Crew management

Oversee your team and personnel, control device access and permissions for remote operations using check-in and check-out functionality.

60 V Professional

High performance tools
for pros and homeowners

**Tame tough
landscapes**

Maintain high-demand areas with pro-grade power. The Kress 60 V batteries perform effortlessly to streamline the way you care for large gardens, forested landscapes, small farms, and more.

Energy system - Kress 60 V

Smartlink

Our intelligent battery control software for battery protection, optimal energy, supply, and communication between the tool, charger, and the battery.

Cell guard

The cells are shielded to prevent vibration and contact with each other (impact protection, vibration protection).

Heatshield

Cells stay cooler longer, increasing efficiency and extending battery life.

The advantages of our brushless Kress motors

Kress 60 V motors are designed for high loads and optimal combination with our 60 V Max batteries. The battery energy is efficiently transformed into performance.

No wear

Unlike brushed motors, brushless motors are wear-free:

- No replacing worn parts
- Longer service life
- Improved battery performance and service life

Top energy efficiency

Brushless motors transform energy almost completely into performance:

- 85% energy utilisation (compared with 75% for brushed motors, 15% for petrol engines)
- No friction losses
- Minimal heat generation

Optimally coordinated power

Kress 60V motors are designed to get the most out of the battery power:

- Optimal energy utilisation
- High torque
- No overcharging

Outer-rotor motor

Lawn mower
60 V Professional

Single lever
height adjustment

Adjust your cutting height rapidly from one location.

Bag / mulch selector

Quickly switch between mulching or bagging applications. Replaces a traditional mulch plug.

Brushless motor

High-efficiency motor provides more power, extended run time, and longer life.

Torque logic

Maintains cutting power under difficult mowing conditions.

46 cm push mower

KG756E.9

Agile yet powerful

Quiet, zero-emissions, cost-effective and packed with many practical functions, this mower is perfect for precision mowing of mid-size lawns up to 800 m².

1.5 kW

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	20 mm - 80 mm
Deck material	Polymer
Bag capacity	55 L
Weight (bare)	24.1 kg
IPX rating	IPX4

46 cm self-propelled mower

KG757E.9

High performance
with ease of use

This quiet mower delivers cost-effective uncompromising performance and user-comfort with zero emissions, ideal for medium-sized lawns up to 800 m².

1.8 kW

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	20 mm - 80 mm
Deck material	Polymer
Bag capacity	55 L
Weight (bare)	26.5 kg
IPX rating	IPX4

51 cm self-propelled mower

KG760E.9

High performance
with ease of use

Cost effective and quiet with zero-emissions, this mower provides petrol-level power for lawns up to 1000 m².

2.2 kW

Voltage	60 V
Motor type	Brushless
Cutting mode	mulch / bag / side discharge
Cutting height	20 mm - 80 mm
Deck material	Steel
Bag capacity	70 L
Weight (bare)	32 kg
IPX rating	IPX4

Grass trimmer
60 V Professional

ECO mode Extends battery life and is great for trimming in delicate areas.

D-handle For multiple position operation in trimming and edging.

Brushless motor High-efficiency motor provides more power, extended run time, and longer life.

Quick load Dual-line bump feed head features easy line loading with a simple twist of a knob. Uses 2.4 mm line and has a 4 m capacity.

38 cm grass trimmer **KG160E.9**

Lightweight but powerful High-performance string trimmer, with a powerful brushless motor, built for frequent professional-grade garden maintenance.

0.95 kW	Voltage	60 V
	Motor type	Brushless
	Line diameter	2.4 mm
	Cutting speed	6000 rpm
	Line feed system	Bump feed
	Trimmer head type	Rapid reload
	Line reload length	4 m
	Weight (bare)	3 kg

41 cm carbon fibre grass trimmer **KG161.9**

Lightweight carbon fibre shaft Equipped with a powerful brushless motor and durable, lightweight carbon fibre shaft, this trimmer delivers petrol-like power without emissions, ideal for professional-grade garden upkeep.

0.95 kW	Voltage	60 V
	Motor type	Brushless
	Line diameter	2.4 mm
	Cutting speed	5600 rpm
	Line feed system	Bump feed
	Trimmer head type	Rapid reload
	Line reload length	6 m
	Weight (bare)	3.12 kg

38 cm attachment capable grass trimmer **KG163.9**

Lightweight and attachable for multi-usage Powered by a powerful brushless motor, this versatile grass trimmer offers multi-attachment compatibility, ideal for frequent professional-grade garden maintenance.

1.2 kW	Voltage	60 V
	Motor type	Brushless
	Line diameter	2.4 mm
	Cutting speed	6000 rpm
	Line feed system	Bump feed
	Trimmer head type	Rapid reload
	Line reload length	6 m
	Weight (bare)	4.3 kg

Available attachments:
brush cutter, pole saw,
hedge trimmer, edger.
See more details in
accessories page

Hedge trimmer
60 V Professional

- Blade tip guard** Reduces blade wear when cutting near the ground or walls.
- 61 cm dual laser-cut blades** Extremely sharp dual-sided blade for a clean cut on every branch.
- Brushless motor** High-efficiency motor provides more power, extended run time, and longer life.
- Handguard** Additional operator protection near the front handle.

Chainsaw
60 V Professional

- One button chain tension** Simplifies the task of maintaining the tension level in the chain.
- Automatic chain oiler** Worry-free bar & chain lubrication for less wear and tear.
- Inertia chain brake** Rapidly stops chain when unexpected kickback occurs.
- Brushless motor** High-efficiency motor provides more power, extended run time, and longer life.

64 cm hedge trimmer

KG262.9

Easy to use Equipped with laser-cut blades and an ergonomic D-grip handle, this quiet hedge trimmer delivers swift cuts of branches up to 2.5 cm thick with zero emissions.

3400 spm

Voltage	60 V
Motor type	Brushless
Cutting speed	3400 spm
Tooth spacing	34 mm
Weight (bare)	3.03 kg

35 cm chainsaw

KG367E.9

Powerful precision for professional cuts Equipped with a 2.5 kW brushless motor, this chainsaw delivers 22 m/s chain speed for smooth and precise cuts. Perfect for demanding professional use.

2.5 kW

Voltage	60 V
Motor type	Brushless
Chain speed	22 m/s
Chain pitch	3/8"
Chain gauge	1.1 mm
Weight (bare)	4.3 kg
Equivalent to petrol power	45 cc

Blower
60 V Professional

Variable speed control Adjustable speeds + Turbo for added control in tight spaces or larger areas.

Turbine air intake Axial fan delivers high-capacity air volume.

Air amplifier technology Allows operator to control air flow and improve efficiency for various job types.

Brushless motor High-efficiency motor provides more power, extended run time, and longer life.

Snow blower
60 V Professional

LED headlights Provides greater visibility for night time snow removal, illuminating a distance of 14 - 20 m.

2-in-1 Chute control system 180-degree rotating chute allows for directional control and can throw up to 14 m away from your driveway.

Stamped steel housing Strength and rigidity housing design to withstand heavy impacts, provides excellent power and durability.

18 N blower

KG560E.9

Powerful and durable This blower delivers 18 N of thrust, for effortless leaf and debris clearing. Built for durability and emission-free operation, it handles demanding tasks with ease.

18 N

Voltage	60 V
Motor type	Brushless
Max. air volume	1275 m³/h
Max. air speed	215 km/h
Blowing force	18 N
Weight (bare)	2.3 kg

61 cm self-propelled 2-stage snow blower

KG470.9

Heavy duty clearing This Kress-built snow blower clears up to 390 m² per charge with a throwing distance of 14 m. It delivers powerful performance in tough snow conditions.

61 cm

Voltage	60 V
Motor type	Brushless
Throw distance	up to 16 m
Clearing width	61 cm
Intake depth	45 cm
Auger type	Steel
Working area capacity	21 car driveway
Weight (bare)	59.8 kg
IPX rating	IPX4

Battery & charger
60 V Professional

The ideal battery
for all jobs

Kress 60 V battery
technology

100% compatible with all 60 V Kress outdoor power equipment. All the products in the 60 V range fully exploit the higher power of the 60 V battery. The lithium-ion battery guarantees continuous high power and faster charging. It also stays cool, even with high loads. Our batteries are made from top-quality materials for a longer service life, and they meet all recycling requirements.

Battery & charger
60 V Professional

60 V 2.0 Ah battery KA3000

IPX4
rated

The KA3000 guarantees continuous power and faster charging for the toughest jobs. It has a cooling technology that works even under high loads. It is manufactured from top-quality materials for a longer service life.

Charge time from 25 min
Weight 1.55 kg
Battery capacity indicator Yes

60 V 4.0 Ah battery KA3002

IPX4
rated

The KA3002 delivers continuous power and extended runtime for tough jobs. It is engineered with a cooling technology and premium materials that ensure durability and longer service life, even under heavy loads.

Charge time from 30 min
Weight 2.75 kg
Battery capacity indicator Yes

60 V 8.0 Ah battery KA3018

IPX4
rated

The KA3018 delivers relentless power for tough tasks, charges rapidly, and it's built with the best materials for an extended lifespan.

Charge time from 48 min
Weight 2.95 kg
Battery capacity indicator Yes

60 V 3 A charger KA3713

This charger communicates with the battery to balance the cells and monitors temperature and voltage, helping to extend the battery's lifespan.

Weight 1.5 kg
Charge times
1 x 2.0 Ah 40 min
1 x 4.0 Ah 80 min
1 x 8.0 Ah 120 min

60 V 5 A fast charger KA3714

This charger offers fast and efficient charging with its SmartLink battery management and cooling system. It charges batteries in minutes while providing enhanced protection for the cells, ensuring a longer service life.

Weight 1.7 kg
Charge times
1 x 2.0 Ah 25 min
1 x 4.0 Ah 50 min
1 x 8.0 Ah 77 min

60 V 8 A dual port charger KA3706

This dual charger can charge two 60 V batteries at the same time. The built-in SmartLink battery management and cooling system provides better protection for the battery's cells and guarantees a longer service life.

Weight 2.8 kg
Charge time
1 x 2.0 Ah 25 min
2 x 2.0 Ah 30 min
1 x 4.0 Ah 30 min
2 x 4.0 Ah 60 min
1 x 8.0 Ah 48 min
2 x 8.0 Ah 96 min

40 V | 20 V Residential

Dual 20 V batteries
for dominating
40 V performance

Power up your garden For everyday homeowners, Kress offers a versatile range anchored by a modular 20 V battery pack system. Double up to 40 V for high-powered tasks, or stick with a single 20 V module for compactness and ease in lighter duties.

Energy system - KrossPack

Smartlink

Our intelligent battery control software is for battery protection, optimal energy supply, and communication between the tool, charger, and the battery.

Cell Guard

The cells are shielded to prevent vibration and contact with each other (impact protection, vibration protection).

Heatshield

Cells stay cooler longer, increasing efficiency and extending battery life.

Lawn mower
40 V | 20 V **Residential**

**Single lever
height adjustment**

Adjust your cutting height rapidly from one location.

Brushless motor

High efficiency motor provides more power, extended run time and longer life.

**Check battery status
easily from the deck**

Quickly and easily check the remaining battery status from deck.

37 cm push mower **KG745.9**

**Agile and
lightweight**

Ideal for gardens up to 400 m², this compact, lightweight mower facilitates precise mowing with convenient user-friendly features and excels in bagging and mulching.

1.2 kW

Voltage	40 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	20 mm - 70 mm
Deck material	Polymer
Bag capacity	40 L
Weight (bare)	13.95 kg

41 cm push mower **KG748.9**

**Agile yet
lightweight**

This push mower delivers superior cutting efficiency with minimal downtime, ideal for 500 m² lawns.

1.25 kW

Voltage	40 V
Motor type	Brushless
Cutting mode	mulch / bag / rear side discharge
Cutting height	25 mm - 75 mm
Deck material	Polymer
Bag capacity	50 L
Weight (bare)	15.6 kg

Grass trimmer 40 V **Residential**

- ECO mode** Extends battery life and is great for trimming in delicate areas.
- D-handle** For multi-position trimming and edging.
- Brushless motor** High efficiency motor provides more power, extended run time and longer life.
- Quick-line load** Dual-exit bump feed head features easy line loading with a simple twist of a knob. Uses 2.4 mm line and has a 4 m capacity.

Hedge trimmer 40 V **Residential**

- Dual-action cutting blades** Dual-action cutting blades minimise vibration for fast, clean cuts.
- Handguard** Additional operator protection near the front handle.
- Ergonomic rotating rear handle** Rotate the rear handle to make any trimming position easy and comfortable.
- Full-wrap front handle** Rapid and easy manoeuvring for ergonomic operation.

38 cm grass trimmer

Powerful and quiet

High performance and the power of petrol without the noise, the upkeep and the exhaust fumes.

Chainsaw
40 V | 20 V **Residential**

Inertia chain brake Rapidly stops chain when unexpected kickback occurs.

One button chain tension Simplifies the task of maintaining the tension level in the chain.

Automatic chain oiler Worry-free bar & chain lubrication for less wear and tear.

35 cm chainsaw **KG346.9**

Powerful and efficient The KG346 provides petrol-like performance with 2.5 kW power and 18 m/s high-speed chain for smooth and rapid cuts.

2.5 kW	Voltage	40 V
	Motor type	Brushless
	Chain speed	18 m/s
	Chain pitch	3/8 inches
	Chain gauge	1.1 mm
	Weight (bare)	4.1 kg
	Equivalent to petrol power	45 cc

40 cm chainsaw **KG347E.9**

Powerful and efficient Packed with user-friendly features, this chainsaw delivers 2.5 kW power and 18 m/s chain speed delivering swift efficient cuts.

2.5 kW	Voltage	40 V
	Motor type	Brushless
	Chain speed	18 m/s
	Chain pitch	3/8 inches
	Chain gauge	1.1 mm
	Weight (bare)	4.2 kg
	Equivalent to petrol power	45 cc

12 cm pruning saw **KG343E.9**

Powerful and precise A powerful and versatile saw for pruning, trimming, delimbing, and bucking, with up to 10 m/s chain speed to facilitate streamlined cuts.

10 m/s	Voltage	20 V
	Motor type	Brushless
	Chain speed	10 m/s
	Chain pitch	0.3 inches
	Chain gauge	1.1 mm
	Weight (bare)	1.2 kg

25 mm pruning shears **KG340.9**

Easy to use The lightweight design makes this pruner ideal for fluid and precise pruning.

25 mm	Battery voltage	20 V
	Cutting speed	0.5 second / cut
	Blade type	SK5 titanium
	Weight (bare)	0.71 kg

Blower
40 V Residential

Variable speed control Adjustable speeds + turbo for added control in tight spaces or larger areas.

Turbo mode An added boost of power at the push of a button for those heavy-duty jobs.

Silent turbine fan technology Silent turbine design to minimise noise down to 57 dB.

16 N Silent blower

KG584.9

Lightweight and quiet Equipped with a brushless motor in a lightweight design, this quiet leaf blower is ideal for residential use.

16 N

Voltage	40 V
Motor type	Brushless
Max. air volume	900 m³/h
Max. air speed	290 km/h
Blowing force	16 N
Weight (bare)	1.9 kg

Battery & charger
20 V Residential

Kress 20 V battery
technology

Compatible with all Kress 40 V
outdoor power equipment when
using two batteries

Battery & charger
20 V Residential

20 V **2.0 Ah** battery **KAB02**

Powerful, compact, and flexible.
Compatible with all Kress 20 V and
40 V tools, this versatile battery
delivers high-efficiency performance.

Charge time	from 20 min
Weight	0.4 kg
Battery capacity indicator	Yes

20 V **8.0 Ah** battery **KAB08**

This battery ensures peak performance.
Compatible with all Kress 20 V and 40
V tools, it delivers exceptional power,
maximum efficiency, and extended
runtime for every task.

Charge time	from 32 min
Weight	1.08 kg
Battery capacity indicator	Yes

20 V **4 A** dual-port charger **KAC04**

The Kress dual-port charger charges
all Kress 20 V KrossPack lithium
batteries. It charges a single battery in
30 minutes for uninterrupted activity.

Weight	0.95 kg
Charge time	
1 x 2.0 Ah	30 min
2 x 2.0 Ah	60 min
1 x 4.0 Ah	60 min
2 x 4.0 Ah	120 min
1 x 8.0 Ah	120 min
2 x 8.0 Ah	240 min

20 V **4.0 Ah** battery **KAB04**

Smart, powerful, and flexible. This
versatile battery powers all Kress 20 V
and 40 V tools, delivering the energy
and runtime needed for demanding
tasks.

Charge time	from 20 min
Weight	0.67 kg
Battery capacity indicator	Yes

20 V **2 A** single port charger **KAC02**

Powers up Kress 20 V KrossPack
batteries quickly, fully charging a
2.0 Ah battery in 60 minutes.

Weight	0.41 kg
Charge times	
1 x 2.0 Ah	60 min
1 x 4.0 Ah	120 min
1 x 8.0 Ah	240 min

20 V **15 A** dual-port charger **KAC15**

The dual-port charger powers up
two 2.0 Ah KrossPack batteries
in 40 minutes, ensuring minimal
downtime and seamless productivity.
It is compatible with all Kress 20 V
Lithium-Ion batteries.

Weight	1.38 kg
Charge time	
1 x 2.0 Ah	20 min
2 x 2.0 Ah	40 min
1 x 4.0 Ah	20 min
2 x 4.0 Ah	40 min
1 x 8.0 Ah	32 min
2 x 8.0 Ah	64 min

Robotic mower RTKⁿ

The satellite-guided robot
mower that requires no antenna
on your property

NO boundary wire

For nearly 30 years, the only way
to keep a robot mower inside its
working area was with a
powered wire.

NO beacons

This positioning method requires
installing at least three beacons on
your property.

NO antenna

Conventional RTK systems work
with an antenna installed on your
roof or lawn.

How it works

Your mower

Available for lawns from 600 to
28,000 square meters, there's a
Kress RTKⁿ model for you.

Your lawn

Expect your best lawn ever, with
fresh-cut stripes every single day.

Our network

Each antenna of our exclusive
network covers any number
of lawns within an up to 60 km
radius area.

Robotic mower
RTKⁿ

**Daily fresh-cut
stripes: your lawn's
new signature**

Kress RTKⁿ mowers follow a parallel line pattern. The result? Beautifully aligned stripes that make your lawn a neighbourhood showpiece. Every single day.

“ We were losing a person for a whole day every week just for mowing. Now we have the mowers autonomously starting at about 3am in summer. When we get in, it's basically done. **”**

Westminster Abbey

**Neighbour's grass
always greener? Not
anymore**

Turf experts agree: frequent mowing is the most crucial step for improving your lawn's health and visual charm. Don't have time? Kress does it daily.

**Mowing efficiency,
redefined**

Kress systematic cutting in parallel lines allows a single mower to manage up to 28,000 m². Not enough? Kress robot mowers are also designed to operate in fleets.

Greener landscapes

Kress robotic mowers significantly lower the carbon footprint of any property, from private homes to commercial facilities, fostering greener and more enjoyable living and working environments.

Stay in control

Easily create maps, set mowing schedules, manage charging stations, customise working zones, and more.

Master of complexity

Guided by satellites, Kress robot mowers excel at navigating complex landscapes and confidently follow even the most tortuous paths from one turf area to another.

Washable underbody

IPX5 rated, the chassis is designed to withstand the force of a sustained water jet from a hose, making cleaning quick and easy.

Auto-levelling blade system

The floating blade deck automatically adjusts to uneven terrain, ensuring a consistent cut while preventing turf scalping.

Robotic mower RTKⁿ

What if there's poor satellite signal?

If satellite signals are obstructed by buildings or trees, Kress mowers switch to inertial navigation and odometry to maintain accurate routing, until a clear satellite connection is available again.

“ I immediately saw that it was the right solution for the hotel. I didn't hesitate to adopt it, replacing the previous system. I am already considering using Kress RTKⁿ robotics in other facilities as well. “

Four Seasons Hotel Firenze

Guided by satellites, precision perfected

Kress's exclusive network of base station antennas delivers accurate correction data to each individual mower, ensuring pinpoint accuracy for every blade of grass.

Inertial navigation

Inertial navigation, or dead reckoning, uses motion sensors to calculate an object's position, velocity, and orientation without external references like GPS. It's critical when such references are unavailable but is prone to cumulative errors. Accuracy depends on sensor precision and the algorithms used.

Robotic mower
RTKⁿ

Some of the world’s most
iconic golf courses are shifting
to unmanned mowing

Free your staff for
what matters more

Stop assigning your skilled
greenkeepers to endless hours of
mowing. Let Kress Robotics handle
the routine, so your team can focus
on perfecting every detail of your
course.

“ With Kress, we’ve been able to take
it around the side of dunes, down
into hollows. It never gets stuck,
we’ve never had an issue with it.”

Thomas Peters, Greenkeeper at the
Royal Portrush Golf Club

Let the roar be from
the crowd, not the
mowers

Kress robotic mowers glide
across the turf like a drained putt,
ensuring your golfers remain
focused on the game, fully
immersed in the experience.

No matter the
weather

Rain or shine, Kress robotic
mowers are engineered to ensure
superior traction even in wet or cold
conditions, where massive tractor
tires would slip.

Quieter greens, better games

Diesel mowers reach noise levels as
high as 105 dB, while Kress robot mowers
operate at a much quieter 60 dB. This
isn't just a 40% reduction - noise pressure
doubles for every 3 dB increment, making
diesel mowers 32,768 times louder. For
golf courses that value tranquillity, it's a
monumental difference.

Robotic mower
RTKⁿ

**Don't let your
signature turf crack
under pressure**

Heavy machinery compacts the soil, cutting off essential air and water supply to the roots, resulting in expensive turf renovation. At only 25 kilos, Kress robotic mowers won't crack your turf.

**Maximise your
ROI with smart turf
management**

Stop the high upfront costs, fuel and maintenance expenses of traditional mowers. With minimal energy usage, Kress delivers significant savings, superior turf quality and a better allocation of your skilled staff.

“ I've done some of the math: we are saving around 2,000 hours a year. That can be as much as £40,000 in total savings. ”

Jeff Miller, Director of Agronomy,
Santaluz Golf Club

Nothing is better

Other RTK mowers need multiple antennas across your golf course, which not only adds to your costs but also disrupts the scenic beauty. Kress ensures centimetre-level accuracy with no need for additional infrastructure.

Don't press too hard

Heavy machinery compacts soil, reducing air, water, and nutrient flow. This results in poor root growth, increased turf diseases, drainage issues, reduced turf density, and costly turf renovation. Kress RTKn robotic mowers, being significantly lighter than tractors, prevent soil compaction, enhance turf health, and extend its lifespan.

Robotic mower
RTKⁿ

Master of complexity

Broad and heavy robotic mowers can handle open areas, but what about the tricky semi-roughs, slopes, and tight corners? With Kress, every inch of your course gets the attention it deserves.

Your course,
your rules

Other robotic mowers force you to reshape your course to fit their limitations. Kress respects your course's natural contours, preserving the integrity and beauty of your landscape.

Two-holes-in-one

Switch to Kress mowing to reduce your carbon footprint and boost your environmental reputation. A win for your course, and the planet.

Versatility at every
height

With electronic height adjust, Kress robots adapt to different areas of your course.

“ The collabouration with Kress has proven to be the ideal solution, taking turf maintenance to a new level of excellence. ”

Mariano Saiz, Director of the Santa Marina Golf Club

Fairway:	≥ 12 mm
Precut:	30 mm
Semirough:	40 mm
Rough:	≤ 60 mm

Agility meets
precision

Kress Obstacle Avoidance System (OAS) ensures the mower navigates with precision around each challenge the terrain presents.

Dual-layer blades

Engineered on separate planes, the blades effortlessly manage high-density and overgrown grass.

In-hub gearless
motors

Kress direct-drive motors ensure smooth, trouble-free running, season after season.

Large cutting
capacity

The dual-disc ensures efficient coverage of large areas with fewer passes.

600 m² Kress RTKⁿ robotic lawn mower

KR160E

Redefining precision in lawn care with Kress RTKⁿ technology, the KR160E robotic lawn mower introduces satellite-guided, centimetre-level accuracy without the need for any property-specific stationary antennas.

Cutting area	600 m ²

12,000 m² Kress RTKⁿ robotic lawn mower with OAS
(Obstacle Avoidance System)

KR233E

Redefining precision in lawn care with Kress RTKⁿ technology, the KR233E robotic lawn mower introduces satellite-guided, centimetre-level accuracy without the need for any property-specific stationary antennas. Engineered for expansive landscapes, it manicures areas up to 18,000 m² with a stripe-perfect finish. Equipped with dual-layer razor-sharp blades and obstacle avoidance system, the KR233E operates efficiently under any conditions. Its MAP™ (Mowing Action Plan) and TeamWork™ collaborative technologies provide seamless management of every turf complexity.

Max. area performance (72h)	18,000 m²
Rec. area performance (48h)	12,000 m²
Cutting width	35 cm
Cutting height	30 - 60 mm
Battery capacity	20 V 10.0 Ah
Average running time	80 min
Charging time	84 min
Max. incline	40% 22°

24,000 m² Kress RTKⁿ robotic lawn mower with OAS
(Obstacle Avoidance System)

KR236E

Redefining precision in lawn care with Kress RTKⁿ technology, the KR236E robotic lawn mower introduces satellite-guided, centimetre-level accuracy without the need for any property-specific stationary antennas. Engineered for expansive landscapes, it manicures areas up to 36,000 m² with a stripe-perfect finish. Equipped with dual-layer razor-sharp blades and obstacle avoidance system, the KR236E operates efficiently under any conditions. Its MAP™ (Mowing Action Plan) and TeamWork™ collaborative technologies provide seamless management of every turf complexity.

Area performance 72h (Standard footbal field)	36,000 m²
Area performance 48h (Standard footbal field)	24,000 m²
Area performance 72h (Golf course)	27,000 m²
Area performance 48h (Golf course)	18,000 m²
Cutting width	35 cm
Cutting height	30 - 60 mm
Battery capacity	20 V 10.0 Ah
Average running time	66 min
Charging time	30 min
Max. incline	40% 22°

Dual discs	✓

28,000 m² Kress RTKⁿ robotic lawn mower with OAS
(Obstacle Avoidance System)

KR237E

Enhanced cutting performance, driven by a high-power motor and featuring a gliding disc, ensures exceptional efficiency and precision in trimming low, dense grass. With a cutting height as low as 10mm, it is specifically engineered for fairways, delivering consistent, high-quality results with increased speed and optimised performance.

Area performance 72h (Standard football field)	42,000 m²
Area performance 48h (Standard football field)	28,000 m²
Area performance 72h (Golf course)	36,000 m²
Area performance 48h (Golf course)	24,000 m²
Cutting width	35 cm
Cutting height	10 - 60 mm
Battery capacity	20 V 10.0 Ah
Average running time	TBD
Charging time	30 min
Max. incline	40% 22°

Robotic lawn mower
Mission

Manicured perfection

Thanks to its strategically offset blade, the Kress Mission mows closer to edges, means there's less trimming for you to do afterward.

Auto-schedule

By being aware of the size of your lawn, weather conditions, and other key factors, a tailored mowing schedule is created on a daily basis.

Master of complexity

The Kress Mission navigates seamlessly through tight and intricate corridors, where other robot mowers don't dare.

Energy-smart on slopes

Kress robotic mowers capture energy as they descend hills, recycling power back into the battery.

6,00 m² Kress Mission Nano robot mower **KR101E**

Upgrade your lawn care with efficient area coverage, edge mowing, narrow path navigation, and an auto-schedule fine-tuned to your lawn.

Max. area performance (72h)	1,000 m²
Rec. area performance (48h)	600 m²
Cutting width	18 cm
Cutting height	30 - 60 mm

Wheel brush kit for Mission RTKⁿ KA0172

Remove grass clippings to improve climbing ability.

Weight 0.29 kg
Compatible with KR16XE, KR17XE, KR230E

RTKⁿ Standard accessories

Robotic

Wheel brush kit for Mega RTKⁿ **KA0173**

Removes grass clippings to improve climbing ability.

Weight 0.28 kg

Compatible with KR233E KR236E

Charging station installation kit for hard surfaces **KA0178**

Secure the charging station on a hard surface, and use it to protect the magnetic strip.

Compatible with All RTKⁿ models

Mission Standard accessories

Robotic

Kress Marconi **KA0211**

Function Wi-Fi amplifier module

Compatible with Mission and Nano

Marker light **KA0181**

Installed on both sides of the mower, they serve as safety indicators when working at night or in foggy conditions.

Compatible with KR233E KR236E KR237E

Grass cushion kit **KA0177**

Install next to the charging station, to reduce the tire marks caused by the mower when returning.

Compatible with All RTKⁿ models

Kress GeoTrace **KA0210**

Function LTE module incl. GPS function

Compatible with Mission and Nano

Mission Standard accessories

Robotic

No go + Fast2base digital fence **KA0212**

Magnetic strip 30 m

Compatible with KR120E KR121E KR122E KR123E KR133E KR136E

1,000 m² Installation kits **KA0160**

Boundary wire 180 m

Connectors 2

Pegs 250 pcs.

Compatible with All Mission models

Boundary wire 350 m

Connectors 2

Pegs 470 pcs.

Compatible with All Mission models

200 m Boundary wire **KA0030**

Boundary wire 200 m

No go + Fast2base digital fence **KA0215**

Magnetic strip 5 m

Compatible with KR120E KR121E KR122E KR123E KR133E KR136E

2,000 m² Installation kits **KA0161**

Boundary wire 250 m

Connectors 2

Pegs 340 pcs.

Compatible with All Mission models

Pegs **KA0050**

Pcs 100

Connectors **KA0060**

Pcs 5

30 m Magnetic strip **KA0240**

Magnet stripe 30 m

Pegs 40 pcs.

Connectors 12 pcs.

Robotic App

Full Control at Your Fingertips

Stay connected with your robotic mower at all times. Receive real-time updates on mowing sessions and schedules to ensure your lawn care is always on track and running smoothly.

Customisable Maps and Zones

Easily create, edit, and manage mowing maps, adjust charging stations, and set up multiple working zones. Assign specific robots to each zone for efficient coverage. Customise the schedule of each zone based on your preferred days and times.

Flexible Scheduling

Modify working hours and days directly from the app to adapt to your needs. Make real-time adjustments to ensure your mower operates exactly when and where it's needed.

Mission RTKⁿ is the ultimate robotic lawn mower management app that ensures you are in control of your mower at all times.

Always be updated on mowing sessions and on your robot's schedule. Create new maps, edit them and manage charging stations.

Change working hours and days according to your needs, so you're always in control.

Set up multiple working zones and assign different robots to them.

Connect RTKⁿ to your chosen zone via a preset which you can edit according to the day and time span you need.

Manage your Mission

Your lawn at your fingertips.

The Kress Mission app features advanced tools to manage your lawn mowing effortlessly.

The augmented reality Area Calculator assesses the exact size of your lawn.

Stay always in control of your robot with Mission RTKⁿ app.

Kress 

Be the change

Every now and then, a revolutionary technology makes things obsolete as we know them.

Stop paying for petrol at the pump. Forget expensive maintenance bills. The Kress 8-minute CyberSystem delivers unprecedented power and recharges at incredible speed. With zero emissions and low noise.

By switching to Kress, you're not only saving the planet and your lungs, but you're saving money as well.
