PRECISION GARDEN SEEDER w/7 SEED PLATES

Model: 10001

The 10001 (formally part number 1001-B) takes the guesswork out of planting any row crop including HEMP. Once you select the plate that best fits your seed, just adjust the depth of planting on the ground opener, then set your 30" long row marker for the desired width, next, fill the seed hopper with seeds and finally begin pushing in to your well tilled soil. The results will speak for themselves when days later you look at your garden and see all the row crops come out of the ground at the same time.

HIGH WHEEL CULTIVATOR

Model: 6500

Ideal for a multitude of garden jobs, from light plowing and hilling to furrowing and cultivating, the 6500 is a very versatile tool. Handles and framing constructed of heavy-duty powder coated tubular steel for long life. The 24-inch steel wheel makes operating the cultivator through the soil effortlessly and quicker than comparable models. The 3-Position adjustable height handle and tool bar depth makes the 6500 an easy fit to individual needs.

Optional Part:

Wood Handled Kentucky Style Kit

Model: 6502

For those who prefer a wooden handle, you can now purchase a kit to turn your 6500 into a Kentucky Style High Wheel Cultivator.

50 Gallon Rain Barrel

Model: 89016

Embrace a natural solution, conserve water, and provide the best hydration to your garden and plants. When drought sets in and rainwater is needed, you are ready with approximately 50 gallons of nature's best. The 89016 comes with a brass faucet valve for long life and no-rust, aluminum insect repellent screen to keep critters out of your rainwater.

4LB HANDHELD SPREADER

Model: 14014

Great for small areas or occasional spot spreading, this ergonomic hand spreader is perfect for use with seed, fertilizer, ice melt and any other granular material. Designed for smaller hands with an integrated scoop design, the 14014 can scoop material out of bags or cans so you don't need to touch the material you are spreading. With a 4lb capacity, the 14014 makes quick work of spot spreading, or applying ice melt to sidewalks.

4LB ERGONOMIC SPREADER with ARMREST

Model: 16014

Similar to our 14014, but now available with a comfortable arm rest. Great for small areas or occasional spot spreading, this ergonomic hand spreader is perfect for use with seed, fertilizer, ice melt and any other granular material. Designed for smaller hands with an integrated scoop design, the 16014 can scoop material out of bags or cans so you don't need to touch the material you are spreading. With a 4lb capacity, the 16014 makes quick work of spot spreading, or applying ice melt to sidewalks.

25LB NYLON BAG SEEDER/SPREADER

Model: 2750

The 2750 is the most desired bag seeder on the market, with a 25lb capacity, adjustable shoulder strap and contoured base for fitting around your hip, it was designed with both comfort and operation in mind. The high-speed direct drive gear box allows the operator to adjust the spread width between 8' - 12' by simply changing the crank rate. The nylon construction allows for the bag to remain upright when filling yet collapse for easy storage. The **Exclusive** Rocking Agitator provides smooth, even material feeding to the distribution plate.

40LB PROFESSIONAL HAND CRANK BROADCAST SPREADER

Model: 3100

The 3100 is a perfect choice with a 40lb capacity and the Dual Port Shut-Off system, you can infinitely balance the spread pattern based on material size, weight and flight characteristics. With the Super-duty high-speed gearbox, spread widths of 15ft are common. Epoxy powder coated tubular steel chassis with integrated stand and a wide comfortable carrying straps make this both comfortable to use and highly functional.

“EARTHSHAKER” 4LB HAND SPREADER W/DIAL

Model: Single 17001, Bulk 12pk 17002, Retail 12pk 17012

This hand-held spreader with a dial is perfect for spreading seed, salt, fertilizer and ice melt. The EarthShaker holds up to 4lbs of material and is perfect for a variety of uses. Simply pour your material from a larger bag into the screw top container and spread as much as you like.

65LB RESIDENTIAL BROADCAST SPREADER

Model: 2030

Fully assembled with a rustproof 65lb poly hopper capacity the 2030 broadcast spreader offers the homeowner a large capacity spreader with features found on our Commercial models. The 2030 is equipped with the Side Spread Control which will maintain the correct application rate while eliminating the need to use a side deflector, which prevents materials from being spread to flowerbeds, sidewalks, or driveways. The exclusive 3-hole drop shut-off system ensures even distribution of all granular materials.

65LB RESIDENTIAL BROADCAST SPREADER

Model: 2030P PLUS

With a 65lb hopper capacity the 2030P-Plus offers homeowners a large capacity spreader with features found on our Commercial models. The exclusive 3-hole drop shut-off system ensures even distribution of all granular materials. Fully assembled in the box this unit comes ready to go.

80LB DELUXE RESIDENTIAL BROADCAST SPREADER

Model: 2050SU

This fully assembled spreader with a folding handle will be ready to go from box to lawn in seconds and stores easily. The easy use gauge and lever assembly allows the user complete control over the application of material, coupled with our exclusive 3-Hole Drop Shut-Off System, the 2050SU gives the homeowner professional results.

80LB ESTATE RESIDENTIAL BROADCAST SPREADER

Model: 2050P Plus

Fully assembled, with a folding handle, a rustproof 80lb capacity hopper and 10" pneumatic stud type tires brings capacity and smooth operation to the homeowner. The exclusive 3-Hole Drop Shut-Off System and heavy-duty gearbox ensures an even application of all granular materials with professional results. The fingertip rate control provides easy control and balance of material application unmatched in the industry.

80LB ESTATE TOW BROADCAST SPREADER

Model: 2050TP

The rustproof 80lb capacity poly hopper and the 3-Hole Drop Shut-Off System, the 2050TP will have a balanced spread of any granular material. Equipped with 10” pneumatic tires, heavy-duty epoxy powder coated steel chassis, the 2050TP brings capacity and smooth towing to the homeowner. This semi-assembled spreader will go from box to lawn in minutes.

40LB MEDIUM DUTY ESTATE BROADCAST SPREADER

Model: 2600A-PLUS

The 2600APlus is the closest you can get to a commercial spreader without the cost! With a 40lb capacity rustproof poly hopper provides a low profile to keep it out of the way in the tightest area. The steel “T” handle and solid linkage are features offered on our Commercial & Professional spreaders. Utilizing the 3-Hole Drop Shut-Off System ensures an even and balanced spread pattern of all granular materials, high flotation 9” high-flotation tires roll smoothly over rough terrain as well as icy conditions.

50LB COMMERCIAL BROADCAST SPREADER

Model: 2150

Looking for a compact Commercial spreader? If you are then the 2150 is the answer. The 50lb capacity poly hopper is ideal for small jobs or in a situation where your storage space is limited. The 3-hole drop shut-off system ensures an even spread pattern and provides a feathered spreading edge for accurate applications.

100LB COMMERCIAL BROADCAST SPREADER

Model: 2170

The 2170 is a true Commercial performer 100lb capacity, the heavy-duty “Diamond” chassis and super-duty high-speed gearbox at an affordable price. This mix of high performance and great price gives the Commercial user, or the homeowner with a large lawn, the capabilities of handling large areas easily. The 3-hole drop system will allow for balanced spreading of all types of granular material.

75LB DROP SPREADER

Model: 7312

If you need precise placement of grass seed or other light products, this 75lb drop spreader is the tool for you. Also used in winter salt applications to protect high value flowers from being damaged from broadcast spreaders that spread salt on sidewalks and in some cases – into the flowerbeds. The easy-to-use metering system ensures accurate placement.

80LB 12-VOLT ATV MOUNT BROADCAST SPREADER

Model: M20

With an 80lb rustproof poly hopper and a 3-hole drop shut-off system you will have uniform coverage of fertilizer, seed, chemicals and more from your ATV. Equipped with a 12-volt motor located inside the hopper, and housed in a thermal-plastic case, the M20 is engineered for performance and long-life. The epoxy powder coated frame had a load bearing capacity of 100LB and is designed for horizontal mounting on the front or rear luggage racks.

80LB COMMERCIAL BROADCAST SPREADER

Models: F80/F80H Series

The F80 is the first model in the FLEX-SELECT® series of broadcast spreaders. Built on the chassis of our very popular 2150/2170 line of spreaders, the F80 is ideal for all broadcast spreading jobs, and with adding one of the optional Interchangeable trays, you can customize your F80 to spread anything from low SGN to high SGN materials accurately – fine grass seed to coarse rock salt and everything between.

The F80H, built on the chassis of our extremely popular 2150/2170 line of spreaders, includes the High-Output Tray for use with Rock Salt and other large gauge materials, difficult-to-spread materials, or for very heavy application rates.

Low-Output Tray
